

SET FOR JET is this artist's conception of new flying wing which will feature six jet engines instead of piston-powered ones installed in older models of 105-ton B-35s. New-type bomber is being developed at Hawthorne, Cal., by U.S. Army Air Force. Four engines will be housed entirely in wing, other two in streamlined pods at top.

## 42 Million Lbs. of Butter Cause Government Worry

### THUGS NET \$8,000 FROM COAST HOME

VANCOUVER, July 26.—(CP)—Burglars who looted a wall safe in a Shaughnessy Heights home here during the week-end escaped with \$8,000 in loot.

They got \$6,000 in jewels, \$1,300 in cash and \$450 in bonds.

Paul Heller, the owner, told police today his house had been thoroughly ransacked, the burglars entering the house through a dining room window.

His loss also included a \$400 camera, a \$200 movie camera, \$80 worth of film, a typewriter and three bottles of liquor.

## U.S. Arms Purchase Easier for Dominion

OTTAWA, July 26.—(CP)—Canada is expected to have less difficulty purchasing defence equipment in the United States following President Truman's proposal to spend \$1-450,000,000 to re-arm western Europe, informed quarters said today.

But officials could see little chance of much, if any, of the money being spent in Canada. Under the European Recovery Program, Canada supplies goods to Europe. There was no indication, however, that she would take a similar role in the proposed armament program.

CHANCE SEEN

But the President's statement that "Canadian procurement in the United States should be encouraged" appeared to indicate that present regulations—cutting Canada off from U.S. military supplies—would be changed.

Canada has been unable to purchase defence equipment in the U.S. since last year. This increased the Dominion's difficulties in carrying out the government's plan of converting defence plants to the U.S.

Officials said, however, that the mean Canadian would take a policy of his spending in the U.S. for defence. But it did indicate the Dominion probably would have a guaranteed source of supply.

SAME AS U.S.

Since the war Canada has gradually been standardizing defence equipment with that of the U.S. For example, the Dominion plans to adopt the 300-calibre rifle used by the U.S. as an arm standard replacing the traditional .303.

Canada also plans to start manufacture of the F-86—American jet fighter.

In both cases, the approach, if put in effect, would simplify problems of supply of spare parts and replacement.

In addition, the U.S. has been stockpiling all army equipment and some of this may be available if Canada wanted, officials said.

### Coast Farmers Cut Off Prairie

CHILLIWACK, B.C., July 26.—(CP)—Rampages against prairie centres have stopped altogether and growers believe it unlikely they will resume. Days here reaching 60° centigrade are showing signs of mild.

Prisoners of war, however, are being sent to the prairie to help with the planting of grain.

Only sudden return of the weather, however, can stop the prairie market for fresh raspberries.

Also hard-hit by the rain spell is the pea crop described earlier as "the best ever seen in the valley."

### ACCIDENT IS BORN

SEATTLE, July 26.—(UPI)—Nathan Flood, 26, was cited today for negligent driving after he tried to get Mrs. Lela Mae Drexler, 36, to the hospital after the death of her husband.

Flood, with Mrs. Drexler and her husband in his car, slipped through a stop sign. But another car, sheared off a telephone pole and turned over. An ambulance took Mrs. Drexler to the hospital where she was found to have a fatal heart attack.

## Police Round Up Numbers Racket

Three States Move In On \$50,000,000 Crooked Game

NEW YORK, July 26.—(AP)—A three-state roundup of an alleged \$50,000,000-a-year numbers racket ring, which juggled the figures to cheat the players, widened with more arrests today.

Six men were booked here shortly after dawn, following all-night questioning by District Attorney Frank S. Hogan and aides.

Nine persons were arrested yesterday in New Jersey and Cincinnati, and two were seized here previously.

Today's batch of prisoners, including two newspaper circulation employees, were charged with conspiracy and continuing a lottery.

MANIPULATED REPORTS

Cheating was done by manipulating the reports on the daily totals of the Cincinnati, Ohio, Clearing House Association.

Dennison Duble, secretary of the association, was reported to have admitted he had juggled the figures for 18 months so that the players' normal 1,000-in-1 chance of winning would be reduced enormously.

The Cincinnati bank clearing figures were a factor in determining the winning numbers, in which persons in many states bet their pennies, dimes and dollars.

TOP FIGURE

One of the prisoners, Anthony Strulov, alias Tony Bender, was described by Frank Hogan, New York county district attorney, as one of the top underworld figures in the east.

Strulov was arrested yesterday in Clifton Park, N.J., as the three-state crackdown hit. Duble, who was arrested in Cincinnati, will be brought to New York in face charges.

Seven persons were arrested in Newark, N.J., after New York and New Jersey officers raided the alleged headquarters of the racket in a fashionable home.

Three of the Newark prisoners were held in jail of \$100,000 each.

## Aussie Reds Blacklist Ship

MELBOURNE, Australia, July 26.—(UPI)—The Communist women's union of Victoria today blacklisted all ships bringing coal to strike home Australia.

W. Bird, secretary of the union, ordered his men not to load the freighter Revere, which was to arrive here today, because of its 25,000-ton cargo of coal.

He appealed to other unions not to load or transport any "black" cargoes of coal. Union leaders backed his appeal by refusing to load the freighter on the Yarra River from Port Phillip Bay.

But the Maritime Workers' Federation agreed to unload the 2,000 tons of coal from India brought in by the vessel, which proceeded upriver without load.

The coal stoppage, allegedly Communist, has crippled a large portion of Australian industry and caused widespread unemployment in the midst of a coal winter.

West Berlin Press May Receive Loan

BERLIN, July 26.—(AP)—The finance administration of the three western occupied zones is considering a loan to the Berlin press.

The loan, a representative said yesterday, would be used to keep the press from going bankrupt. It is in danger of having to close down for lack of revenue.

They are reported to be facing only a few hundred dollars in the Yugoslav frontier.

Housing Project

ST. JOHN'S, Nfld., July 26.—(CP)—Work started here today on a 30-unit housing project for the poor in the city.

## Monkey Lends Helping Hand In Washing

MANLY, N.J., July 26.—(AP)—It gave Mrs. Eileen Hungerford a bit of a start when she looked up from her washing to find an unexpected helper sending her year-old son.

The helper was a monkey. It was pushing the baby carriage which Mrs. Hungerford had parked in the back yard while she took laundry off the line.

Mrs. Hungerford grabbed the baby and ran into the house.

The monkey sat in the baby carriage for a while, then opened the screen door and entered the Hungerford porch.

Soon the owner of the animal, a transient, appeared on the scene and claimed his pet. John returned to the Hungerford household.

## U.S., Canada Trouble Seen Over Air Routes

OTTAWA, July 26.—(CP)—A government official said today that the Canadian-United States air agreement could be suspended if the U.S. makes any serious attempt to hold back on application by Trans-Canada Airlines for a Montreal-New York air route.

He was commenting on a Washington report today which said Colonial Airlines has applied to the U.S. Civil Aeronautics Board for a ruling on its challenge of the agreement.

The post-signed June 4—gave a Canadian airline traffic rights from Montreal to New York, previously flown only by Colonial.

The American airline asked a postponement of consideration of the TCA application and a finding by the CAB that it has no jurisdiction over the agreement as perfected.

Earlier, it had claimed the act is invalid because it has not been ratified by a treaty by the U.S. Senate.

The Canadian official said if TCA application is held up for any considerable period, it could lead to suspension of U.S. rights to pick up and drop off passengers at Newfoundland's big Gander Airport. U.S. lines now use Gander as an important link on trans-Atlantic flights.

Suspension of the agreement, the official added, could also lead to termination of U.S. rights to use Edmonton as a stop-over on commercial flights to the Orient.

France has one doctor to every 1,500 persons.

# STAN Harper ON SPORT

## A 20,000 Mile Jaunt

Clarence Campbell hasn't changed much outwardly with the years. A little grayer perhaps, and when he gives you the top of his head the bald spot looks larger than last time.

But this is how Father Time gets in his licks against most men. Even the president of the National Hockey league can expect no favors in this regard.

"I travelled 20,000 miles to get here this time," he made note last night. He chuckled as he said it and his father, George Campbell, and other relatives hard by at the time, likewise seemed to get a bang out of the observation.

Just two weeks ago the NHL head stopped over here for 20 minutes during the course of a Montreal-to-Vancouver air hop.

Since that time he had been to Australia and back, as guest of Grant McConachie, another Edmontonian who has gone a long way in his chosen life-work. In McConachie's case this has come to mean being president of Canadian Pacific Airlines.

Clarence Campbell long has been "air-minded," to use his own expression. But even he was amazed at the ease with which one of those big jobs of McConachie and Co. hopped the Pacific and back.

## Just a Breeze

"There's nothing to it," he enthused. "You climb into the ship, stretch out full length, go to sleep—if that's what you want."

"Facilities are wonderful . . . just wonderful," he repeated.

No, he hadn't managed to talk much hockey while briefly in Australia. However he saw enough to know that rinks are the crying need down under before the game can hope to bloom.

"They have rinks," he pointed out. "But there's little or no accommodation for fans." Some hockey is played there, mostly by transplanted Canadians.

Talk drifted around to hockey's need—if that be the word—of a commissioner. This would be an office similar to the one occupied by baseball's A. B. (Happy) Chandler.

Campbell's name often has been linked with establishment of such an office if, and when, the puck game gets around to it.

"We're not big enough yet," the NHL prexy said. "After all we hardly have four or five controversial questions a season. What would a commissioner do with this time? How would he put it in?"

For instance "C.S.", as many of his friends in these parts call him, disclosed that in his three years of office there hasn't been a single salary squabble between a player and his club.

Baseball is famous for what is known as "holdoutitis."

## No Haves and Have-Nots

"Of course," he went on, "there isn't nearly the differential between hockey salaries that there is in baseball wages."

It was obvious he felt this had a bearing on keeping hockey's "money squabbles" down to a comparative minimum.

Incidentally Campbell has a date to meet baseball commissioner Chandler later in the summer. Hockey is deeply concerned over the outcome of any trial that may reach a U.S. court on the question of baseball's famous reserve clause.

"Inevitably we'll be bound by the ruling," the NHL prexy pointed out.

So far no puckster has seriously questioned the reserve clause in his contract. But then there have been no Mexican raids to stir the hockey pot, as baseball's was stirred back in 1946.

By comparison with the headaches lately visited upon Chandler and other diamond big-wigs, Campbell's worries as guiding hand of professional hockey's No. 1 league add up to nothing at all.

Confident of his position and apparently every inch a success as third president of the National Hockey league.

That's Edmontonian Clarence Campbell today.

## Bobby Locke Barred From PGA Tourneys

ST. PAUL, Minn., July 26—(AP)—Bobby Locke, British Open champion, was scratched yesterday from all major golf tournaments in the United States and many in Canada.

The 32-year-old South African handicapper, the Professional Golfers' association, after his belated withdrawal from the \$15,000 invitational golf matches at Toledo last Thursday.

In Toronto an official of the Canadian PGA said Bobby Locke's suspension was a punishment for his failure to appear at the Canadian PGA Canadian PGA is affiliated with the American body.

PGA of LONG STANDING

PGA suspension estimated a feud of long standing between Locke and golf officials in the United States.

George Snelcher, PGA tournament bureau manager, announced the suspension with a statement that Locke "has on numerous occasions violated the PGA tournament regulations and the tournament players' agreement of the PGA of America which he signed."

Snelcher said "Locke's entry will no longer be accepted in any PGA-sponsored event."

In New York a spokesman for the United States Golf Association said the ban was a matter between the PGA and Locke.

"We have had no request to take action against Locke. If such a request were made it would be up to the executive committee. We don't anticipate anything like that."

Unless the USGA follows the PGA action, Locke will be eligible to play in the United States Open championship, a USGA-conducted event.

"DISGRACE" SAYS LOCKE

First of the trade officials said was ducking by Locke of appearance at tournaments and exhibitions.

In England, Locke declared "A disgraceful commission. Inevitably we'll be bound by the ruling."

BOBBY LOCKE

I have had disgraceful treatment from the American PGA. The ban forced Locke to cancel plans to appear in the Tam O'Shanter \$25,000 open at Chicago early next month.

## Woodenface at Sports School

Bulletin's Woodenface will visit South Side Athletic Grounds tomorrow at 1:30 p.m. as the top attraction on the summer school of sports program.

All South Side boys under 16 years of age are invited to enter the Woodenface contest. Included in the prizes in the grand winner is an expense-free trip to Calgary with one of Edmonton's Big Four league teams.

Baseball instruction at South Side will be given by the Eskimos, while the girls perform the same task at Clarke Stadium. Before the schools close next month all-year teams will be selected to play for Recreation commission trophies.

HOCKEY EXECUTIVE Clarence Campbell can be just as big a tourist as next fellow when it comes to being photographed with native belles. National Hockey league prexy, who arrived in city yesterday after cross-Pacific air flight to Australia and back, posed with pair Hawaiian pin-up girls during stopover in Honolulu.

## NHL Top-Kick Discusses Important Puck Questions

By Stan Mohr

Clarence Campbell, president of the National Hockey league, arrived in the city yesterday to spend a few days with his father, George Campbell, and other relatives.

Following are a few Campbell-isms, as recorded not long after his arrival.

On the NHL players' pension plan

"The plan is working beautifully. Beyond doubt it will do much to stabilize hockey as a career. Yes it's compulsory, with the player contributing \$800 per season. However the scheme is far more advantageous than the compulsory aspect of it is easily forgotten."

"Under the plan a player can collect a pension of \$600 per month at age 60, if he wants to let the fund accumulate following his playing days."

"If I never do another thing for hockey (the pension plan) was a Campbell brain-child. I consider this a really worthwhile contribution."

On the newly adopted 70-game NHL schedule:

"I see no reason why the players should find the increased number of games from 60 to 70 a burden. They'll just practice less and play fewer exhibition games. The players will earn more money. Besides we can't begin to accommodate the fans who want to see hockey. The added games will increase our ability to do so."

"The clubs can use the added revenue. Last year transportation costs went up 27 per cent, players' salaries 15 per cent."

On last winners' outburst against the C-Form by eastern educators:

Dr. Hall and others:

"A complete irresponsible outburst by a man badly informed. The C-Form is designed to do a particular thing. As such it's worth while. Dr. Hall's reference to 12, 13, 14 and 15-year old boys particularly was without any basis."

On the negotiation list:

"The negotiation list poses no obligation whatever on the player. It can't be enforced, without sanction of the players. It's more than a year ago length of time it's in force is 60 days."

"If a club can't satisfy a player."

## SPORTS MENU

BASEBALL: Big Four—Eskimos vs Cubs, Red Sox vs Yankees, Athletics vs Dodgers, Cardinals vs Braves.

Senior B—Saskatoon vs Toronto, Clarke Stadium, hockey vs Vancouver, Seattle vs Chicago, Boston vs New York.

FASTBALL: Kings vs Bruins, Canadiens vs Rangers, Blackhawks vs Red Wings, Flyers vs Penguins.

CRICKET: Alberta vs British Columbia, Ontario vs Quebec, Saskatchewan vs Manitoba.

GOLF: Alberta Ladies' championship at Banff, Ontario vs Quebec.

## Highlands Tackle Boyle Street Nine

Community league football playoffs between Highlands and Boyle street middles commence tonight at Diamond Park on No 5 diamond. The C-Form is designed to do a particular thing. As such it's worth while. Dr. Hall's reference to 12, 13, 14 and 15-year old boys particularly was without any basis."

## Box Score

Team	AB	R	H	E	PA	Score
Highlands	25	4	9	3	30	4-3
Boyle	25	2	6	2	30	3-4
Highlands	25	4	9	3	30	4-3
Boyle	25	2	6	2	30	3-4

## Prudhams Sock Gasco In Semis

Prudhams drew up the Gasco 6-3 in South Side Athletic Grounds last night to take a one-game lead in the semi-final round of the playoffs.

## GILLINGS, LEWIS STAR

## Edmonton Legion Held To 1-1 Tie by Ahepas

SASKATOON, July 26—Saskatoon Ahepas forced the Alberta-Saskatchewan Dominion Football association playoffs in a third game here last night as they held favored Edmonton North Side Legion to a 1-1 tie.

Playing on a muddy field, Ahepas held an edge in the first half and Edmonton taking over in the second. Third game of what started out as a two-off game series will be played here tonight, if Ahepas win tonight. First half play was a close affair, with each team scoring a goal and a corner kick by Lewis, which went high into the air.

# Alberta Golfers Gunning To Regain Lost Prestige

## Harper Confident as Four Advance to Second Round

By Jim Harper

Alberta Willington Cup Star

ST. JOHN, N.B., July 26—Sorry we couldn't have done better in the Willington cup matches but I think we'll regain some of that lost prestige in the amateur.

## Race Results

SASKATOON, July 26—(CP)—Monday's results:

FIRST—Purse \$80, claiming 3-year-olds and up, 1 1/2 miles.

First Robin (Dumas) 30.60 12.20 7.10  
Pete (H. Schmitt) 13.20 7.45  
Gentle (H. Schmitt) 13.20 7.45  
Pete (H. Schmitt) 13.20 7.45  
Gentle (H. Schmitt) 13.20 7.45

SECOND—Purse \$80, claiming 3-year-olds and up, foaled in Canada about 3 months.

## Anderson Tale Is Told

MONTREAL, July 26—(CP)—Charles "Chuck" Anderson, star center with Calgary Stampede, Canadian football champions, yesterday signed with Montreal Alouettes of the Big Four.

Anderson, who flew here Saturday from his home in Santa Monica, Calif., agreed to terms after a conference with Lew Hayman, general manager and coach of Alouettes.

The 26-year-old Negro later told reporters that he "hooked" with the Calgary club a few days before the Grey Cup game, following disagreement with Coach Les Laidlaw at the club's Oakville, Ont. training camp.

"I did get into the game with Ottawa, but I knew then it would be my last one with Calgary," he said.

Coach Les Laidlaw of the dominant champion Calgary Stampede football club said last night the Calgary team decided to drop Chuck Anderson, last year's center, because Anderson "just did not seem to realize that the coach is boss on a football club."

## Ducey Returns From Foothills

John Ducey, Renfrew Park major, returned to the city yesterday after spending three or four days in Lethbridge.

He reported baseball enthusiasm on the upswing in Lethbridge and said the southern Alberta city is a definite possibility for the professional brand of the sport "within ten years."

While in Lethbridge, Ducey sat in on the school of baseball which the school school conducted there by Brooklyn Dodgers.

Ducey, who held a school here earlier in the month, signed two likely prospects from the Lethbridge school.

## Expect Big Entry At Horseshoe Meet

A large entry list is expected for the professional horseshoe tournament being held here August 3. Site of the show will be the Recreation Commission, 100 street, 100 street and 100 street.

Entries can be mailed to Recreation Commission, 100 street, 100 street, Edmonton.

## 'Stretch' Garret Stops Purity With 2-Hitter

CALGARY, July 26. Stretch Garret, Calgary's baseman of Calgary Buffaloes, topped a two-day at Purty's with a 2-hitter in a four-inning game.

Garret had a stellar going into the second inning, when he hit a home run and a double. He ended the season with Purty, only to draw his release.

Keith Bing, Ron Gibbons and manager Jim Gibson paced a 10-inning attack on the offerings of center Jack Mills, who opened on the mound for Purty's, and his successor, Arnie Fernandez, who had two hits.

Buffalo took a two-run lead in the second inning and never looked like losing. They built their margin with runs by the end of eight frames.

Buffalo center fielder Bud Black, who hit a home run and a double, ended the season with Purty, only to draw his release.

## Key Witness Hunted In L.A. Gang Shooting

LOS ANGELES, July 26.—(UP)—Authorities launched a state-wide manhunt today for a key witness in the gangland shooting of mobster Mickey Cohen in fear that he may have met with foul play.

State Atty. Gen. Fred N. Howser said he is "much concerned" over Edward Johnson's failure to report here. He was due Friday. Johnson is a San Diego, Cal., sporting goods dealer who sold one of the shotguns which killed down the dapper little gang leader and three companions on the swank Sunset Strip early Wednesday.

Investigators hoped he could identify pictures of possible suspects as having bought the gun. Howser said Johnson was con-

tacted last week at Lassen Volcanic National Park, where he was vacationing in the big-timber country of northern California. He promised to catch the first bus for Los Angeles and should have been here Friday, Howser said.

The Attorney General's chief investigator, Ralph Davis, said fear of reprisal might have caused Johnson to hush up in San Diego. His associates there were "co-operative" a few days ago but have since become "evasive," Davis said. Howser dispatched an agent to San Diego today to look into the disappearance, and two others were assigned to Lassen county to check Johnson's movements.

Meanwhile the county grand jury was expected to vote indictments today as the climax to a sensational investigation of police graft charges. Cohen touched off the probe when he accused certain vice squad officers of trying to shake him down for \$20,000.

On another front in the city a landed vice scandal, policeman William Keyes resigned from the force yesterday with the explanation that an attempt had been made on his life because he knew too much about police-protected vice.

The 29-year-old officer said shots were fired at him from two cars Sunday night when he was en route to a rendezvous with suspended police Sgt. Charles Stoker and officer Jack Ruggies, important Grand Jury witness during the current inquiry. He said he had vital information to give Stoker.

Police and newsmen were unable to find any bullet marks at the spot where Keyes said he was fired upon.

Keyes, already under suspension from the force for "neglect of duty and conduct unbecoming an officer," said he reported the blonde's charges to police higher-ups but was told:

"Keep your mouth shut, or you'll go to San Quentin."

FLAME-LIKE ARCS of high voltage electricity rise from three revolving electrodes as a 60-cycle, three-phase electric arc is created in the General Electric's new high-voltage engineering laboratory at Pittsfield, Massachusetts. Arcs like this are being studied by

scientists as part of their research into high-voltage phenomena. Future developments in use of electrical energy will arise out of these studies which are being watched with interest by electrical engineers and industrialists.—(AP wirephoto.)

## ADDITIONAL SPORTS

### Commiss Claim Another Record

LONDON, July 25.—(AP)—Prague radio announced that a Russian athlete set a world record for the women's javelin throw in an international track and field meet yesterday between the Soviet Union and Czechoslovakia, at Moscow.

It identified the woman only as Smirnickaya and said she hurled the javelin 49.30 metres (162 feet 6 inches). Former mark was 45.29 metres (150 feet 3 inches) set by H. Baume of Austria in June, 1948 at Vienna.

### Square Series

TORONTO, July 26.—(CP)—Hamilton Westinghouse last night defeated Montreal Stivels 5-0 in the best-of-three series for the Eastern Canada soccer championship at one game each Montreal won the first game 1-0 Saturday night. Third and deciding game will be played here Wednesday.

### Berry Gets Green Light For Fight

Boxing promoter Jack Berry announced last night that he had been granted permission by the Edmonton Boxing and Wrestling Commission to stage a card sometime in August. He has tentatively scheduled the card for the week of August 15.

### Evelyn Linke Wins in East

OTTAWA, July 26.—Evelyn Linke, shapely Edmonton junior, net, set, breezed to victory yesterday as the Canadian Junior Tennis championships got into final swing at the Rideau Lawn Tennis club.

Her victim was Carol Turpin, Ottawa, scores being 6-1, 6-2. Don Macintosh, Calgary, also came through in the junior men's singles, defeating Gary Ogilvie, Ottawa, in straight sets, 6-1, 6-4. A heavy entry list of 76 men and 40 women was whittled down to quarter-final stage in singles events, with no major upsets.

### Slaughter's Spurt Highlights NL Race

NEW YORK, July 26.—(AP)—Enos Slaughter's sensational hitting surge featured National League action during the last week, but Brooklyn's Jackie Robinson still holds a comfortable 27-point lead in the hitting race with his .339 average.

Slaughter, veteran St. Louis Cardinal outfielder, wasn't even among the top 10 hitters a week ago, but 13 hits in 20 at bats has boosted him into a third-place tie with teammate Red Schoendienst at .323. All averages include Sunday's games.

Willard Marshall of New York's Cesena monoplane, Wilcoxon said, displaced Pittsburgh's Ralph Kiner, the home-run leader, as runner-up to Robinson with a .332 mark.

### AL Swat Race Torrid Battle

CHICAGO, July 26.—(AP)—Two batters are tied for the lead and another trails by an eyelash in the American League batting race. George Kell, Detroit, and Ted Williams, Boston, are tied for the lead with 345 averages to shade Don DiMaggio of Boston, last week's leader, who is hot on their heels with 343.

Williams leads the league in the run-batted-in department with 99, as well as garnering the leadership in most runs scored, 89, most hits, 115, and most home runs, 25.

### Miss Canada Heads For Detroit

GRANBY, N.S., July 25.—(CP)—Canada's challenger for the Harmsworth international speedboat trophy at Detroit left here today for race site.

Harold Wilson, owner and driver of the challenger, said last night with deep over in his hometown of Ingersoll. He expected to arrive in Detroit Wednesday with his speedboat, the "Spartan," ready for the opening of the Harmsworth trials Friday.

### Midget Baseball Playoff Dates Set

Playoff dates for midget baseball teams affiliated with the Northern Alberta Baseball Association by NABA secretary Doug McKenna.

Clegg-Care Cards open a best-of-three series with Arcos on August 1. Two days later Scotty's Garage pinks Leafs in the first game of a semi-final round. Second semi-final series is scheduled to commence August 12 between Westmont and winner of Clegg-Care Cards-Arcos.

### No. 6 Luckier Than Naturals

SASKATON, July 26.—(CP)—Saskatchewan No. 6 held the spotlight at the Saskatoon exhibition yesterday as the city's six-day race meeting got underway in rainy and windy weather.

Horsen beating No. 6 accounted for five of the seven faves on the card run over the week-end in Saskatoon's history. It was classed as heavy.

ST. CATHARINES, July 26.—(CP)—St. Catharines last night defeated Hamilton 16-3 in a senior Ontario Lacrosse game.

## British Food Man Chides Hollywood

Stars Eat, Drink Too Much, Too Long; Get Too 'Tidly'

HOLLYWOOD, July 26.—(UP)—A British restaurant man, inspecting movieland cafes with a professional eye, discovered today that American movie stars use like stages, spend the evening over dinner and eat twice too much.

In England, John Finney explained, their stars never dream of going to a restaurant to battle their mates, (2) table hop with every other guest, (3) telephone all their friends, (4) try out their latest act, (5) make love, or (6) put on boxing matches.

"They go to eat," he said. "Americans seem to be more, ah, boisterous," Finney said politely. "Why, you order a telephone at your table before you get a menu."

Britishers, from fish-mongers to Laurence Olivier, order dinners limited by law to \$1; wipe their plates in dignified silence and never take more than an hour about it.

In some of the fancier movie haunts here, \$1 buys a piece of bread and butter.

But it isn't the prices that shock Finney, the head of the ancient Pimm's restaurants in London and one of the sponsors of the Pimm's cup drink. It's the pounds of food movie stars pile on their plates.

"They don't eat half of it," he marvelled. "The way you waste food here is appalling." He

starting a campaign to cut Hollywood servings in half.

The stars usually return half their flint mignon and baked asparagus for the pigs anyway, he observed. Keep half of it warm in the kitchen, he suggested, and then if Lana doesn't want it, John Bull does.

Hollywoodites also appear to Finney to drink at least twice as much as is reasonable.

"You seem to go on a pub crawl every night," he chuckled. "And you take your women."

"I believe you deliberately set out to get tidily," he said.

Finney observed the eating habits of the stars from among other places, a table next to an elegant party of Lana Turner, her husband, Bob Topping, Sonja Henie, who used to be married to Topping's brother, Van Johnson, who used to go with Sonja, and George Burns and Gracie Allen.

Finney would have learned more if he'd trailed along to another night spot. It was reported there that Lana and Bob had a fight which nearly blasted out the windows.

## Inside Hollywood

By Bob Thomas

HOLLYWOOD.—(AP)—Jack Benny jokes about being perennially 38, but to many movie stars age is no laughing matter.

Probably nowhere in this troupe world is age an important factor as in Hollywood. Some stars conceal their birthdays with atom-bomb secrecy. Many are led by studio press agents or vanity to falsify their ages.

"This can start at an early age. Until recent years Shirley Temple's announced age was a year younger than she actually was. Reason: her studio wanted to make her seem more precocious."

It's enough to drive an "old" editor batty. Recently I had to check the birth date of Bing Crosby. His brother, his studio and the book of his life gave three different years. The current one seems to be 1901.

Have a laugh. The official studio biographies always provide a snicker. They will say, "Miss Glenn was born Jan. 26. That's all. It would seem that film stars are born on days but never in years."

Most of the stars' ages can be obtained from old records. Only Hedy Lamarr and George Raft have managed to keep their age a mystery. Someone who should know once told me that it is 32.

At Joelson's proclamation the news that he is a mere lad of 63 and offers his drivers' license as proof of the same. But a driver's license is far from official and his friends say he is beyond 60.

Gloria Swanson makes no bones about being 57. She admits it freely because most people think

she's older, having been in the public eye so long. Likewise people are surprised to learn Loretta Young is only 36. She's been in the movies 25 years.

DIPLOMATIC

Hollywood reporter has to be diplomatic concerning ages, as I have sometimes discovered by trial and error. Once I was talking to a veteran glamor girl about movie stunts. She said she had bought into one company when the stock was 40, but it quickly plummeted to nine.

"You'll never see 40 again," I commented unwittingly.

Luckily the gal had a sense of humor and replied, "You can say that again, boy."

## SHOPPING GUIDE

If You're a Smuggler  
You'll Get That Frig

By Bea Thrifty

Our neighbours to the south, citizens of Butte, Mont., are buying top-ranking automatic refrigerators for \$199.50 with \$25 worth of groceries thrown in as an added incentive. Doesn't that make you just burn with envy?

Not only are they still scarcer than "hen's teeth" here but they're selling at twice that price... and without the groceries.

Our improved pattern—usual with easy-to-use charts and photos, and complete directions—makes needlework easy.

Send twenty-five cents in coin for this pattern (stamp cannot be accepted). To: Edmonton Bulletin, Household Arts Dept., 60 Front Street, W., Toronto 1A, Ontario. Please allow a week or ten days for delivery.

## Famous Pianist Runs Travelling Library

MELBOURNE, Australia.—(CP)—A world-famous pianist is running a mobile library service for Australian children living in the "outback."

The pianist is Hepthalia Menzies, sister of the celebrated violinist, Yehudi Menzies. In private life she is Mrs. Menzies, wife of a granter at Terminus Park, in the western district of Victoria.

Her travelling library is housed in a post-war model utility truck. In the back of which are wooden boxes arranged as bookshelves. These contain over 1,000 children's books.

The unit has travelled more than 2,000 miles in the last year, visiting small settlements, schools and farms in outlying areas and opening new worlds of color and adventure to lonely youngsters.

Raising funds to start the library was the first job that Mrs. Menzies and her helpers had to tackle. She and her helpers had to travel all over the state, and raising business firms to contribute, they raised enough money to buy the utility truck and to have books made for the books.

Mrs. Menzies said it was decided to distribute the books through bush schools and teachers were asked to tell the children about the scheme. The children now look forward eagerly to "library days" every 14 days.

**Retiring Engineer To Be Feted By His Three Daughters**

**Fashions Show New Necklines**

**NEW YORK, July 26. (AP)—** The battle of the neckline goes on again in fall fashions currently being shown in New York.

Designers are showing necklines that are more daring and more varied than ever before. The neckline is the key to the new look. It is the first thing you see when you look at a dress. It is the first thing you notice when you see a woman. It is the first thing you remember when you see a woman.

## Ex. Accident Toll Down Report Says

Edmontonians are becoming more cautious. Despite the fact that far more people visited the Edmonton Exhibition this year than last, fewer accident cases are reported by St. John's Ambulance Brigade.

Most serious case handled by St. John's Ambulance Brigade.

Police are investigating the case of a man who suffered two fractured ribs while being taken down.

## Policemen Flee Russian Zone

Police are fleeing the Russian zone in the city of Moscow.

## Nfld.'s Peter Cashin Assails Confederation

By the Minister

PAUL WHITE Singing Star of 'A DATE WITH MUSIC'

Monday thru Friday 10:00 noon Your Friendly Station CFRN

"Covering over 1,000 miles a week, with capacity loads and fast schedules. I ran into frequent tire failure caused by build up of heat and excessive tread wear. This necessitated costly delays and replacements. ON CHANGING TO SEIBERLING TIRES WITH THEIR TOUGH HEAT-VENTED TREAD I HAVE FOUND THE ANSWER TO MY TIRE PROBLEMS."

Lawson I. Mills, Prop., United Transport, Truro, N.S.

Only 1 tire in the world air-conditions its own tread

## the "Heat-Vented" SEIBERLING

PREMIUM QUALITY AT STANDARD PRICE

... Recommended to you by users from East and West!

## ASK YOUR SEIBERLING DEALER

to show you the new Seiberling Safety Tire. See for yourself how it expels dangerous internal tire heat... draws in cooler air... automatically... as you drive. Here is the only tire in the world that actually air-conditions its own tread to run Cooler... Safer... Farther... More Comfortably. Here is Premium Quality at Standard Price... available in standard sizes and in "EXTRA-LOW PRESSURE" sizes, too.

Seiberling Rubber Company of Canada, Ltd., Paton Road, Toronto, Ont.

HEAT VENTS

LIKED IN B.C.  
"Having an insurance agent I needed a tire that was safe and reliable. I found it in the Seiberling Safety Tire."

LIKED IN QUEBEC  
"I have been driving Seiberling tires for years and I have never had a problem. They are the best tires I have ever driven."

LIKED IN ONTARIO  
"I have been driving Seiberling tires for years and I have never had a problem. They are the best tires I have ever driven."

## CBC Asking \$4 Million To Start TV

OTTAWA, July 26.—(CP)—Parliament will be asked again this fall to vote \$4,000,000 to start television.

Once approval is given, A. D. Dutton, chairman of the CBC board of governors said today, there should be television in Canada within 12 to 18 months, that is some time late in 1950 or 1951.

The government asked the Commons to vote the money at the final session of the last parliament but that was one of the things left undone at prorogation for the June 27 election.

Interim government policy, as outlined by Revenue Minister McCann, calls for establishment of CBC stations in Montreal and Toronto. In the great majority of Canadian communities, Mr. Dutton said, private enterprise will have prior opportunity to get into the field—if it can afford it.

## KINESCOPE RECORDS

Through what are down as kinescope recordings—counterparts of "canned" radio broadcasts—the CBC production of the first Metropolitan records could provide programs to private stations in other cities.

The recordings transcribe TV broadcasts in sight and sound and then played from any station that has them. They are sent out as movie films of radio recordings are now.

Mr. Dutton said that network television, he indicated, is probably "some distance off" for Canada. Such things as that will be considered by the Massey Royal Commission which has TV down for study this year.

## Oleo Appeal To Be Heard

LONDON, July 26.—(CP)—The Canadian Federation of Agriculture today was granted leave by the judicial committee of the Privy Council to appeal from a judgment of the Supreme Court of Canada that has no power to prohibit manufacture of butter substitutes.

Lord Porter, announcing the decision, said the law would be the opinion of the court should go forward "expeditiously."

## HEARD IN FALL

A Privy Council official said later the appeal probably will be heard during the autumn.

The federation's application for leave to appeal from the Supreme Court judgment was made by Frank Gahan, formerly of London, Ont. It was opposed by M. McKenna for the attorney-general of Quebec and by Miss M. P. Hyndman of Toronto for the Canadian Association of Consumers.

Gahan contended there was ground for appeal in the fact there was "much difference of opinion" among the justices of the Supreme Court regarding the validity of section 3-A of the Dairy Industry Act.

## PROHIBITS IMPORT

Despite these differences, the Supreme Court upheld the action under the act which prohibits the importation into Canada of oleomargarine, margarine, butterine or other butter substitutes.

The court found, however, the action went beyond the power of the dominion parliament in prohibiting the manufacture of such substitutes.

Gahan said the Parliament of Canada had since 1886 prohibited the manufacture and sale of butter substitutes with the exception of a period during the First World War when the sale of oleomargarine was permitted as an emergency measure.

HALIFAX.—George H. Gordon, 66, superintendent of Dominion Foundries and Steel Co. Ltd.

EDMONTON.—Alexander J. Bea, 10, Edmonton's eldest citizen.

## OLD FOREIGN TOPER

## Martini-Drinking Cat Also Manly Art Expert

WASHINGTON, July 26.—(UPI)—Kiki, an old foreign toper, came to the land of plenty today—and promptly went on the wagon.

Kiki, who was real plain about it, couldn't stomach our martini. Not even enough.

Kiki, who was raised on gin and vermouth, is a cat. A fugitive from the back alleys of old Madrid, a gray and white animal of doubtful pedigree and the property of Mrs. Wladimir Hunter, a 30-year-old woman who has just returned from the office of duty in Spain. Mrs. H. is of now is waiting for a reassignment after 20 years of foreign service with our government.

When we walked into the Hunter-Kiki hotel room for the cat, the lovely Mrs. Hunter, who looks half her age, said "the cat" was full. This reporter disregarded the warning and has a couple of Kiki's toothmarks on his left arm to prove it.

Mrs. Hunter, after she had

NOT SITTING BULL but jumping bull is Bomber, a Brahma steer, who was not content to be classed as a steer. Whenever he gets bored he nonchalantly leaps over the nearest car. His owner, Deloise Wilke, watches as Bomber takes running leap in North Hollywood, Cal.

## 20 Die, 200,000 Homeless After Shanghai Typhoon

### POSSIBLE STERLING VALUE DROP DENIED

LONDON, July 26.—(Reuters)—Lord Addison, Lord Privy Seal, reaffirmed last night in the House of Lords that the government has "no intention whatever of entering into the rash experiment of devaluations of sterling."

He is glad to find support for that policy on both sides of the House. He said that the government is on Britain's economic position.

Lord Addison criticized a remark by Lord Brand, representative of the British treasury in the United

States from 1944 to 1946, that the world is losing confidence in sterling.

Lord Addison did not think it true that the world had little confidence in Britain.

"I think the record of this country, in contradiction to some others, in increasing its production in face of immense difficulties and wholesale war damage in the last four years is something of which we are quite justly proud," he declared.

Shanghai, China, July 26.—(UPI)—Twenty persons were killed, 70 injured and 200,000 made homeless today when the Typhoon Gloria hit Communist-held Shanghai after smashing two big American air bases on Okinawa.

Marked by 60 mile-an-hour winds and torrential rains, the typhoon howled northward into the Yellow Sea and last was reported heading for the big port of Tientsin on the Shantung peninsula.

Behind Gloria's swirling nose, another typhoon named Hester raged out of the Pacific, lashed the coast of Japan with winds of 70 miles an hour and headed for the Japanese home islands.

American air force weather stations alerted Tokyo and the southern Japanese islands to meet the storm. It was expected to be 430 miles south of Kobe at 9 a. m. tomorrow. Experts said it may or may not increase in intensity on its northeast journey.

**CITY FLOODED**

Shanghai was flooded with water from one to six feet deep in the wake of the storm. Water stood knee deep in the main downtown streets and the city was paralyzed for 24 hours.

The first part of the storm hit western Shanghai Sunday night, cutting a 10-mile swath of destruction. Winds and rain ripped down houses, trees and billboards.

The Communist radio said one third of the storm district in western and northern Shanghai was destroyed. More than 200,000 residents made homeless when their rickety shanty houses swayed and fell into downtown Shanghai seeking shelter and food.

Press dispatches said at least 20 persons were killed and 70 injured. Many of the casualties were caused by fallen wires. One ship in the Atlantic was lost to the storm, and many more in the gale.

## Four Highways Hard-Surfaced

### Several Detours In Effect As Alta. Road Work Mounts

Hard surfacing of four Alberta main highways is underway in the province now.

Alberta's main north and south highway is being asphalt surfaced in three places: between Macleod and Staveland; between Wetaskiwin and Leduc and between Morinville and Clyde Corner.

Traffic is being accommodated in these areas, but between Wetaskiwin and Leduc speed limit of 25 miles an hour must be observed.

## HARD SURFACING

On Highway No. 2, hard surfacing is continuing between Winnifred and Medicine Hat where buses and trucks are being accommodated. All other traffic is being detoured between Winnifred and Medicine Hat airport for 32 miles on gravelled road.

Hard surfacing is also proceeding on Highway No. 16 between Macleod and Pincher where there are short detours.

Highway No. 16 is being hard surfaced between Kitchissippi and Lloydminster and between Edmonton and Chipman Corner. Traffic travelling between Kitchissippi and Lloydminster is being detoured through Blackfoot on the old highway.

## ON HIGHWAY 12

Detour starting two miles west of Lacombe and continuing two miles north, five miles south and two miles south is being used on Highway No. 12 while asphalt surfacing of a new road there proceeds.

Grading and graveling work between Beaver Crossing and Lacombe and between Fairview and Lacombe is being completed. Traffic is being detoured through west of Acme, through Acme and north of the highway.

On Highway No. 2, traffic is detoured between Fairview and Lacombe and between Fairview and Lacombe. Traffic is being detoured through west of Acme, through Acme and north of the highway.

On Highway No. 2, traffic is detoured between Fairview and Lacombe and between Fairview and Lacombe. Traffic is being detoured through west of Acme, through Acme and north of the highway.

On Highway No. 2, traffic is detoured between Fairview and Lacombe and between Fairview and Lacombe. Traffic is being detoured through west of Acme, through Acme and north of the highway.

On Highway No. 2, traffic is detoured between Fairview and Lacombe and between Fairview and Lacombe. Traffic is being detoured through west of Acme, through Acme and north of the highway.
